PAS-800™

Penetrant - Acidifier - Surfactant

ACTIVE INGREDIENTS:

Phosphatidycholine, methylacetic acid and alkyl polyoxyethylene ether.....	80.0%
Components ineffective as adjuvants	20.0%
TOTAL:	100.0%

Ingredients exempt from tolerance under 40 CFR 180.1001(c).

KEEP OUT OF REACH OF CHILDREN DANGER / PELIGRO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail).

See **FIRST AID** Below
SHAKE WELL BEFORE USING

FIRST AID

IF ON SKIN: Treat as corrosive. Immediately flush skin with large amounts of running water for at least 15 minutes while removing clothing. Get medical attention.

IF IN THE EYES: Treat as corrosive. Immediately flush eyes with large amounts of running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eye and lids with water. Get medical attention immediately.

IF SWALLOWED: Immediately drink two (2) glasses of water. Induce vomiting. Get medical attention immediately.

IF INHALED: Remove victim to fresh air; apply artificial respiration if necessary.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Causes skin and eye injury. Avoid contact with skin, eyes and clothing. Harmful if swallowed. Avoid breathing spray mist. If contact is made with a pesticide containing spray solution, follow the "FIRST AID" on the pesticide(s) label(s).

GENERAL INFORMATION

PAS-800 is a non-ionic surfactant and when used as a surfactant, enhances activity and the effectiveness of agricultural chemicals such as acaricides, defoliants, desiccants, fungicides, foliar nutrients, herbicides, insecticides and plant growth regulators. When this product is used as a penetrant, a more uniform coverage is provided by decreasing surface tension of spray solutions. This product can be used as an acidifier to lower pH of spraying solutions to prevent alkaline hydrolysis of pesticides sensitive to high pH.

DIRECTIONS FOR USE

Application may be done by ground or aerial equipment. For all applications of this product, read and follow the "Directions for Use" on the pesticide(s) label(s). Since this product is to be used with pesticides, read and follow the "Personal Protective Equipment and Agricultural Use Requirement" sections of the pesticide(s) label(s). Prior to use with any pesticide, all spray mixing and application equipment should be thoroughly cleaned. Observe all cleaning instructions on the label(s) of the pesticide(s) to be used. The use of test areas is recommended where field or use experience is limited. Do not add adjuvant to a level that exceeds 5% of the finished spray volume.

RECOMMENDED USE RATES

Defoliants, Desiccants, Herbicides: Apply 1 to 4 pints per 100 gallons of spray mixture when used as a surfactant or penetrant. Apply 12 to 32 ounces per acre when used in place of crop oil concentrates.

Acaricides, Fungicides, Insecticides, Plant growth regulators and Foliar nutrients: Apply 8 to 32 ounces per 100 gallons of spray mixture.

Industrial Spraying, Ornamentals, Turf: Apply 1 to 3 ounces per 5 gallons of spray mixture. All ornamentals and turf species have not been tested with this product. Before treating a large area, test on a small area and observe for 48 hours prior to full scale application.

Acidifier: Apply 4 to 8 ounces per 100 gallons of spray mixture for mildly alkaline or acid water (pH 6.5 to 8). Apply 8 to 16 ounces per 100 gallons of spray mixture for highly alkaline water (pH 8 or higher).

STORAGE AND DISPOSAL

PRODUCT STORAGE: Protect from freezing temperatures. If frozen, warm product before use. Store in original container. Keep container tightly sealed. Do not allow chemicals or water to be introduced into contents of container.

CONTAINER DISPOSAL: Do not reuse container. Do not contaminate water, food, or feed by storage or disposal. Triple rinse (or equivalent) and add rinsate to spray tank, then offer for recycling or reconditioning or puncture and dispose of according to State and Local authorities.

WARRANTY—CONDITION OF SALE

OUR RECOMMENDATIONS FOR USE of this product are based upon tests believed reliable. Follow directions carefully. Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith.

In no case shall the Manufacturer or the Seller be liable for consequential, special or indirect damages resulting from the use of this product when such use and/or handling is not in strict accordance with directions given herewith. The foregoing is a condition of sale by the Manufacturer and is accepted as such by the Buyer.
