

MULTIFUNCTION SPRAY ACTIVATOR AND WATER CONDITIONER

ACTIVE INGREDIENTS:

Proprietary blend of potassium salts of hydroxyl carboxylic, phosphoric, and poly-acrylic acids and amine phosphate 50%
 Inert Ingredients 50%
 TOTAL 100%

AVAILABLE IN:

2 x 2.5 case, minibulk, bulk

UNITED SUPPLIERS INC.

GENERAL INFORMATION

SPEEDWAY is a multi-function spray activator for glyphosate and certain other post-emergent herbicide, defoliant and desiccant sprays. SPEEDWAY can replace ammonium sulfate in glyphosate applications. It is designed to condition spray water which may lead to increased pesticide activity and improved absorption into leaf surfaces. SPEEDWAY contains a proprietary blend of powerful buffering, sequestering and water conditioning agents designed to improve the characteristics of hard water and neutralize metal cations.

SPEEDWAY may be used where water conditioning may positively affect pesticide performance. SPEEDWAY is compatible with most ammonium nitrogen sources, including 32-0-0, 10-34-0 and ammonium sulfate. In some cases, additional ammonium nitrogen may be added to the spray tank to meet specific pesticide label requirements. SPEEDWAY does not replace a surfactant. If the pesticide label requires a surfactant, use CHEM-SURF at recommended rate. The efficacy of SPEEDWAY and the effects of the spray application may be affected by various environmental factors and the condition and operation of the sprayer. Periodic calibration of spray equipment and visual inspection of the spray application may necessitate an adjustment of the adjuvant rate.

When used according to the Directions for Use, SPEEDWAY is compatible with all glyphosate formulations and many other pesticides and fertilizers. Do not use with sulfonylurea herbicides. Maintain good equipment hygiene by cleaning pumps, lines and tanks after using this product.

DIRECTIONS FOR USE

SPEEDWAY is intended for use with products registered for agricultural, horticultural, turf, ornamental and non-crop uses.

ADD SPEEDWAY TO WATER BEFORE ADDING PESTICIDES

General Use, pH reduction & buffering

Standard: 1 quart per 100 gallons of water

Ground/Air range: 1-6 pints per 100 gallons of water

For severe water conditions or to maximize pesticide activity

Ground/Air: 3-6 pints per 100 gallons of water

Use a minimum of 1/2 pint per acre

Use higher rates of SPEEDWAY in areas where the water has a high mineral content.

CAUTION: Read and follow all pesticide label directions. Do not use where the pesticide label specifically prohibits the use of a water conditioner or buffering adjuvant. The addition of an adjuvant to some pesticides may increase the risk of phytotoxicity to certain susceptible crops, especially during periods of high humidity or other circumstances which may increase the activity of spray solutions. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant / pesticide spray mixture or should apply a small test area before making large scale applications. Care should be exercised when using on new varieties or crops not previously treated with SPEEDWAY. Make sure application equipment has been properly cleaned according to pesticide label directions. SPEEDWAY is not intended as a replacement for nonionic surfactants or crop oil concentrates. Follow pesticide label directions for the use of nonionic surfactants or crop oil concentrates.

STORAGE & DISPOSAL

STORAGE: Store in original container only. Keep container tightly closed. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment wash water or spray waste. Do not store near heat or open flame. Do not store with oxidizing agents.

DISPOSAL: Triple rinse (or equivalent) and add rinsate to spray tank, puncture then return to a suitable pesticide container collection site for recycling.

PRECAUTIONARY STATEMENTS

Before using this product, read all precautions, directions for use, conditions of sale-limited warranty and limitations of liability and remedies. This product may cause eye or skin irritation. Avoid contact with eyes, skin or clothing. Wear goggles or face shield and chemical resistant gloves when handling. Do not breathe vapors or spray mist. Do not swallow.

FIRST AID

If on skin: Thoroughly wash exposed areas of skin with soap and water.

If in eyes: Flush with clean, lukewarm water for at least 15 minutes. Seek medical attention.

If swallowed: Drink several glasses of water immediately. Do not induce vomiting. Seek medical attention. Do not give anything by mouth to an unconscious person.

If inhaled: Move victim to fresh air. Seek medical attention if breathing becomes difficult.

CAUTION

KEEP OUT OF REACH OF CHILDREN STOP - READ ENTIRE LABEL BEFORE USING

CONDITIONS OF SALE OF WARRANTIES

The directions for use of these products reflect the opinion of experts based on field use and test. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of the Manufacturer or the Seller. All such risks shall be assumed by the buyer. The manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the directions for use, subject to the inherent risks referred to above. **THE MANUFACTURER OR SELLER MAKES NO OTHER EXPRESSED OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OF ANY OTHER EXPRESSED OR IMPLIED WARRANTY. IN NO CASE, SHALL SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.** The Manufacturer and the Seller offer this product and the Buyer and User accepts it subject to the foregoing conditions of sale and warranty which may be varied only by agreement in writing signed by duly authorized representative of the manufacturer.
